Me,Smailova Zere, confirm that the internship period was completed in accordance with the work schedule of the internship from 06.02.2023 - 28.04.2023

Company name: '"IT FACTORY"'

Table:

№	List of works to be performed (training) according to the program of diploma experience	Timeline of Pregraduational Internship	
		start	finish
	Launched docker with nginx rebuild and connected postgres db	06.02.2023	08.02.2023
	They gave me a task: As a user, I want to see my transactions in order to be able to control the movements of the account	09.02.2023	21.02.2023
	You need to write a rest that will give the user orders, by filtering	22.02.2023	03.03.2023
	I corrected the code according to the instructions in gitlab	04.03.2023	08.03.2023
	The next task was to upload a screening report through the admin panel	09.03.2023	18.03.2023
	I did the task and merge request to gitlab	18.03.2023	19.03.2023
	Fixed the code there was an error that it does not read columns in the table	10.03.2023	24.03.2023
	The following tasks are a list of promotions depending on the availability of a subscription	25.03.2023	01.04.2023
	Added a new table where subscriptions are stored	02.04.2023	03.04.2023
	I did what he looks up to date subscription and shows shares and merge request to gitlab	04.04.2023	10.04.2023
	I corrected the code according to the instructions in gitlab	11.04.2023	19.04.2023
	Described two rest in confluence	20.04.2023	28.04.2023

Supervisor's grade: 40/40
